STONE CATALOGUE

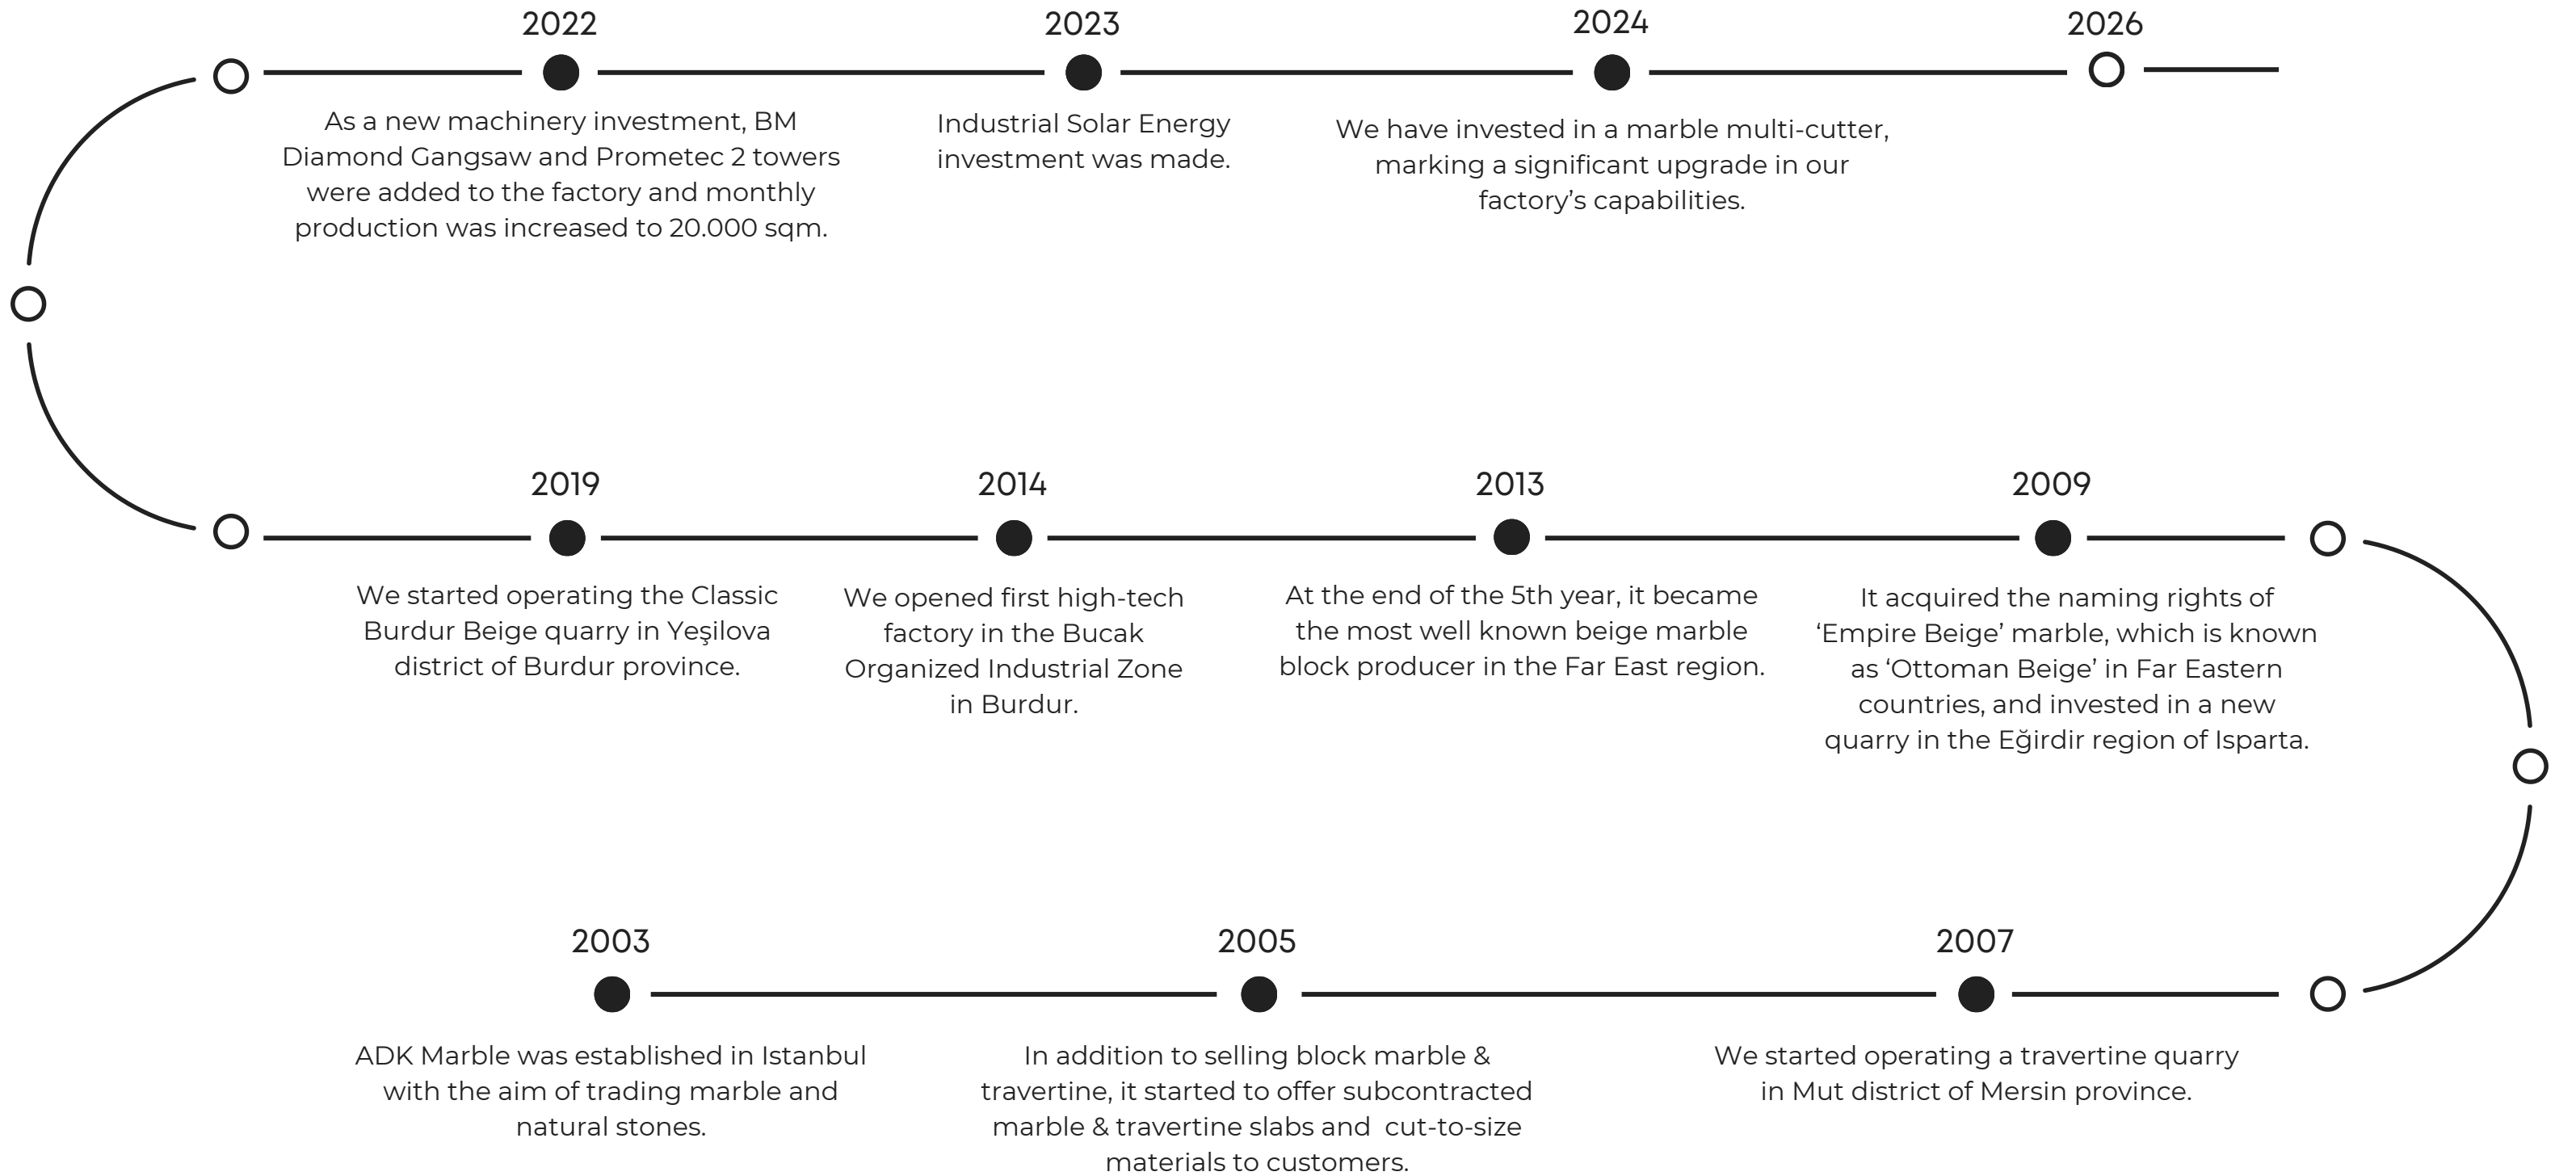

2026

 **ADK MARBLE®**

OVER **20** YEARS OF
EXPERIENCE

In 2003, ADK Marble embarked on its journey and today stands strong with over 20 years of expertise in the marble industry.

Throughout these long years, our company has attained a significant position in the sector through innovations, a focus on sustainable growth and a customer-centric approach. Looking forward, we will persist in our commitment to delivering the highest quality products and services to our customers, strengthening our leadership in the industry, and striving for new successes.

QUARRY

OUR QUALIFIED TEAM FOLLOWS THE PROCESS OF NATURAL STONE FROM THE QUARRY TO THE CONSTRUCTION PROJECTS

We have been extracting stones for you from our quarries and supplying them to you since 2007. We follow global trends in stone and work to bring the best to you based on our years of experience and artistic understanding of nature.

ADK Marble's Burdur Beige Quarry is in accordance with market demands and the most recent trends in the marble sector. Located in Yeşilova, Burdur province, a region well-known for its beige marble reserves with a 30.000 ton annual production capacity. The quarry, which is the accumulation of years that nature has presented to us, still continues to work with the same excitement as on the first day.

Lastly, we would like to point out that protecting our natural resources and respecting the environment are very important to us. As a responsible business, we are committed to making wise choices about the way we operate, the policies we follow and the impact we have on the communities where we live and work.

FACTORY

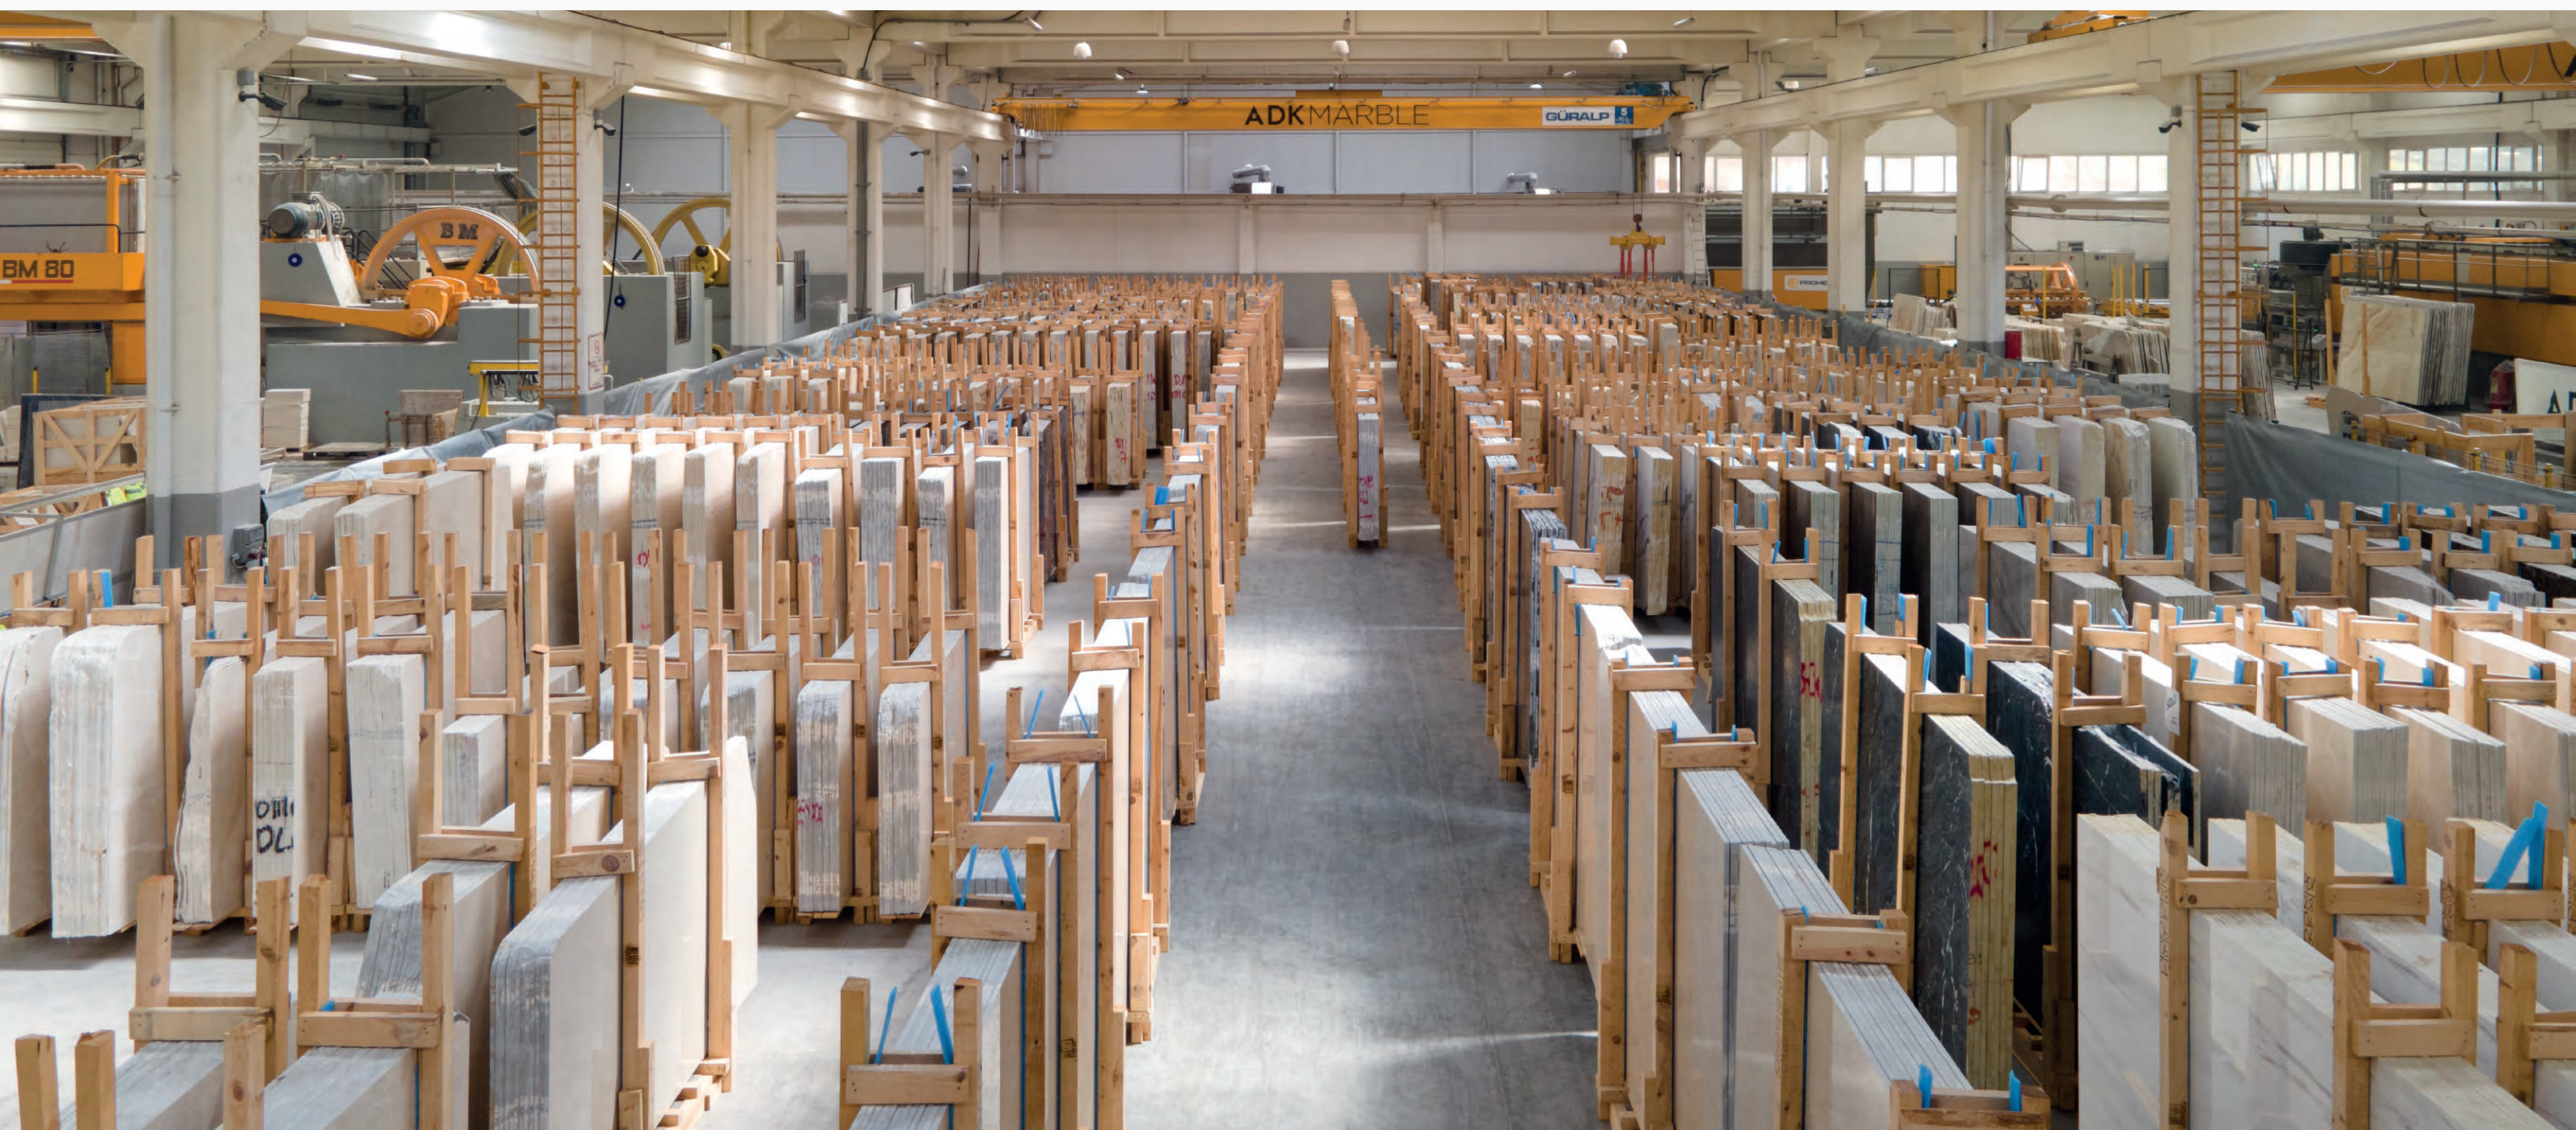

ADK Marble is currently one of the top-ranked marble suppliers with two privately owned quarries, an ultramodern and high-technology factory, and an international sales network that is growing day by day. It is primarily an export-oriented company that currently exports all around the world.

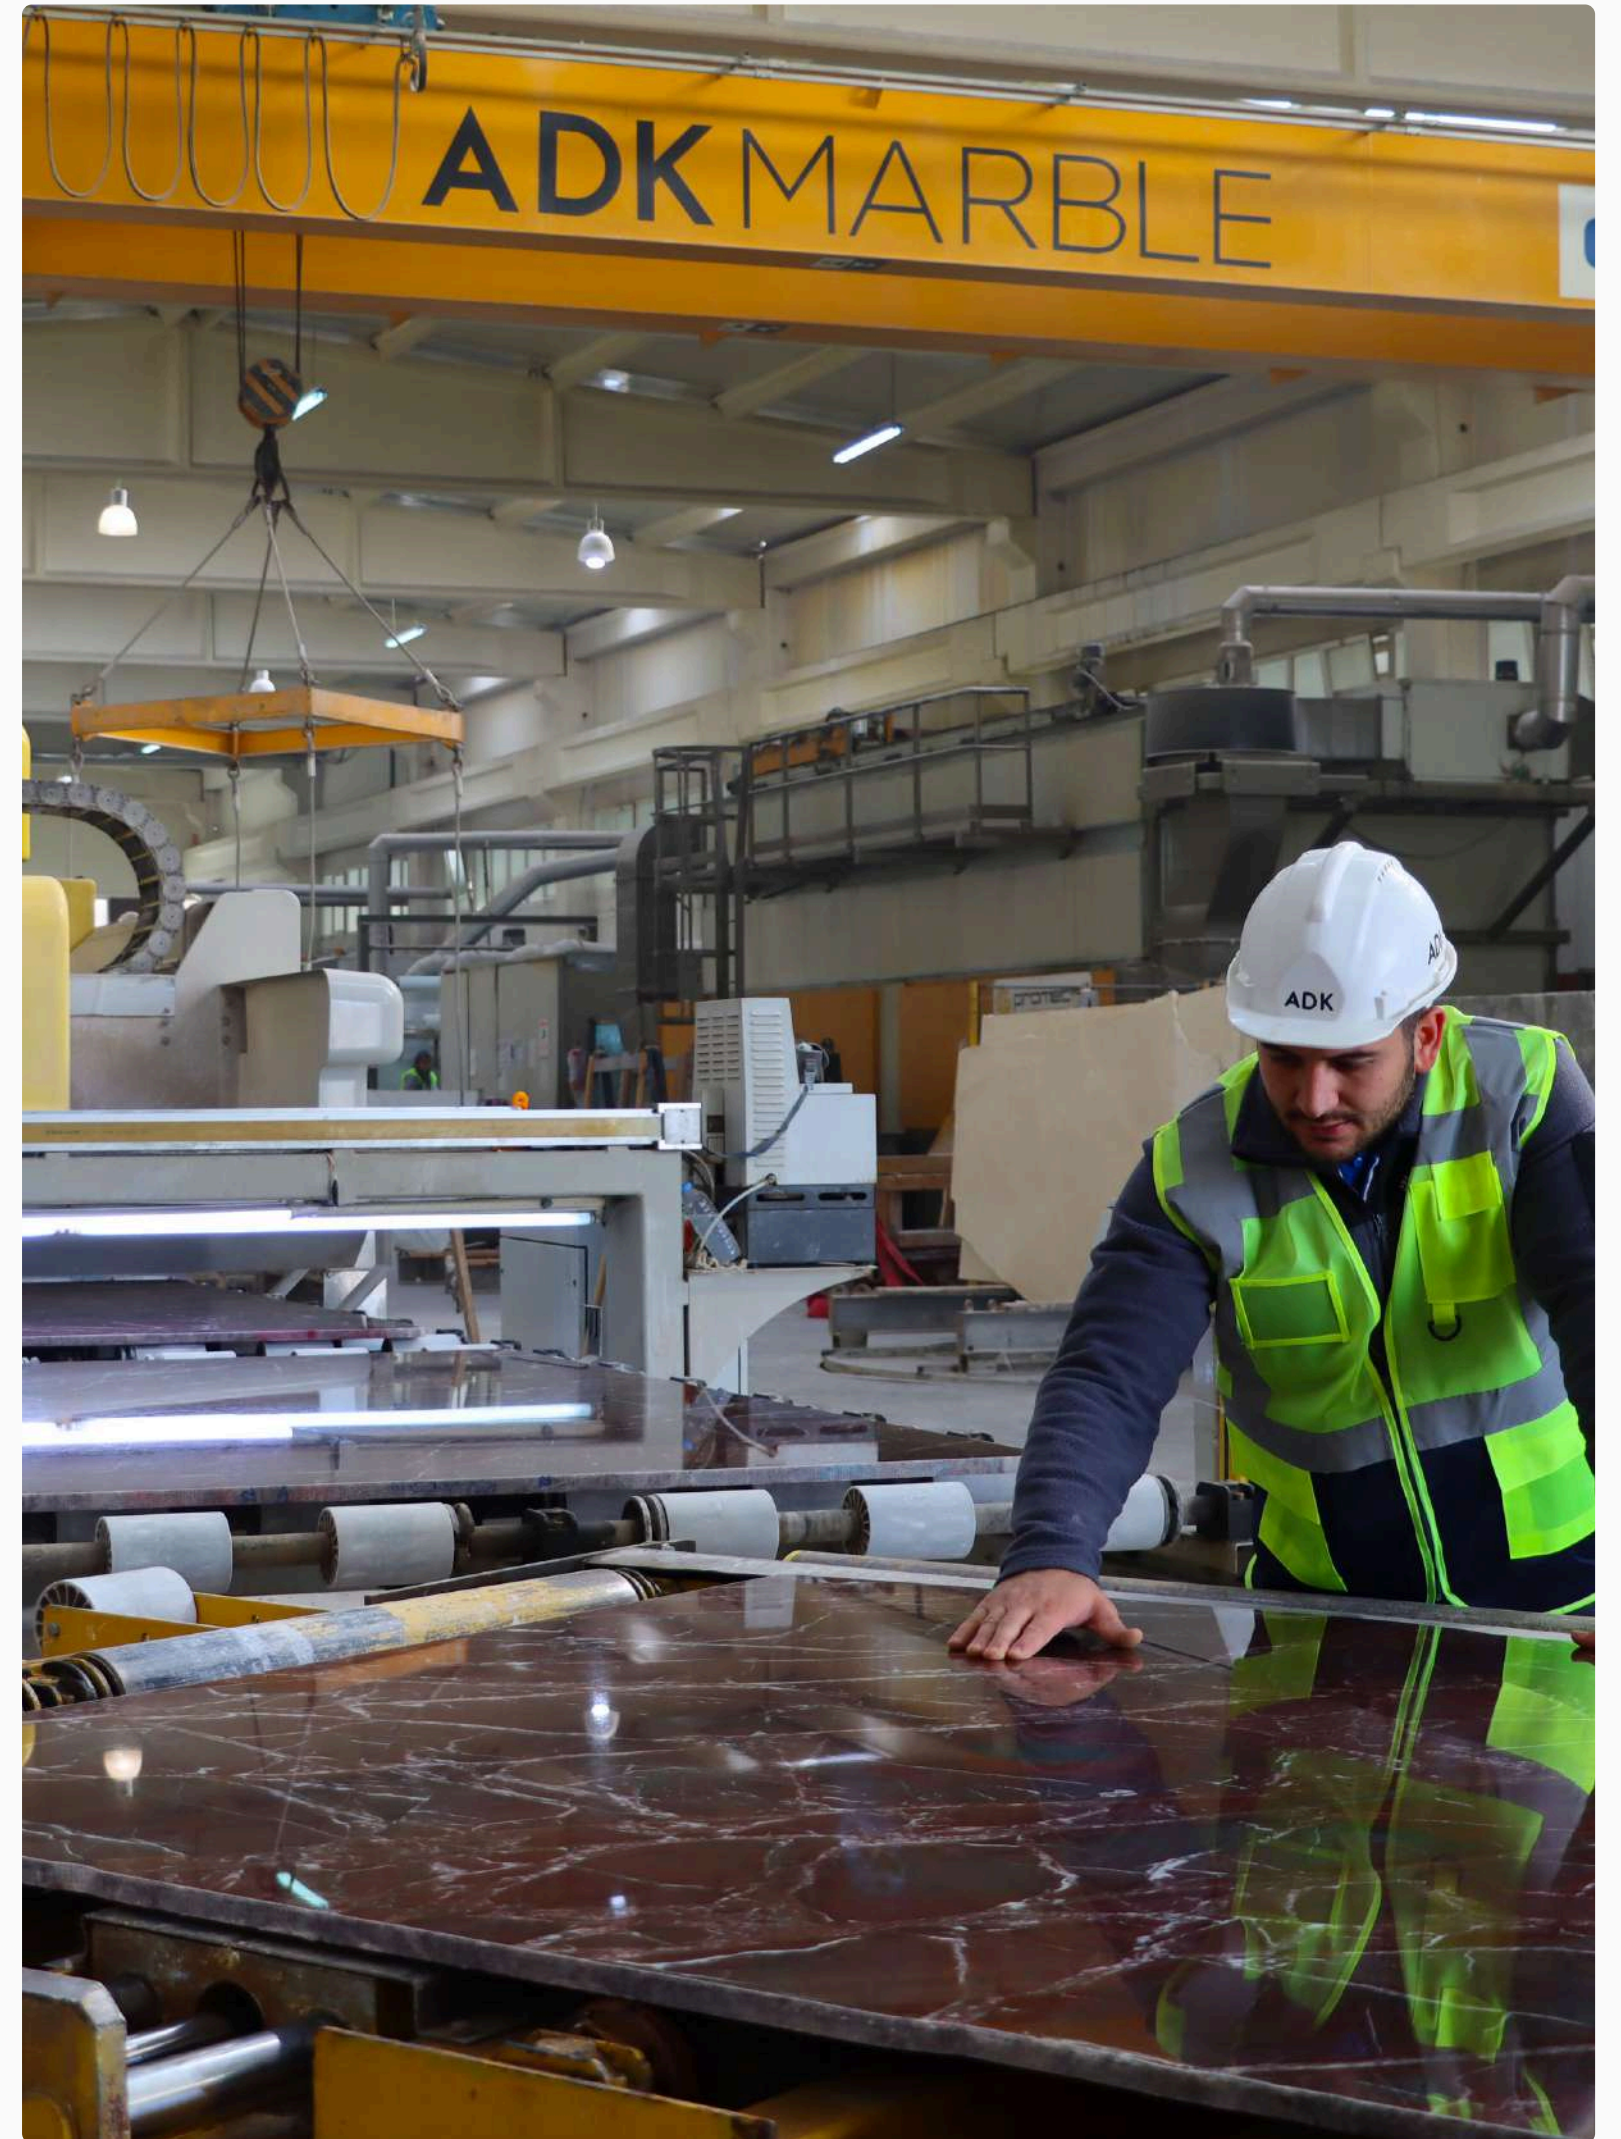

ADK Marble serves its customers with a monthly production capacity of 25,000 square meters through its cut-to-size and slab production factory located in Burdur Bucak Organized Industrial Zone, covering 5,000 square meters of enclosed space within a total area of 10,000 square meters, aimed at meeting the growing demand. The factory not only produces slabs but also cut-to-size materials, enabling the realization of unique projects for customers. The advantageous location of the factory, being just 75 kilometers away from Antalya Port and in close proximity to ADK Marble's quarries in Isparta and Burdur, plays a crucial role in this decision.

We take pride in stating that ADK Marble Factory is one of the most modern factories in Turkey. This achievement is a result of significant investments made to ensure the highest standards in marble production.

ADK Marble Factory, with its advanced Italian machinery and recent investments, produces high-quality finished marble products in a wide range of sizes, from large-format slabs to smaller and customized dimensions.

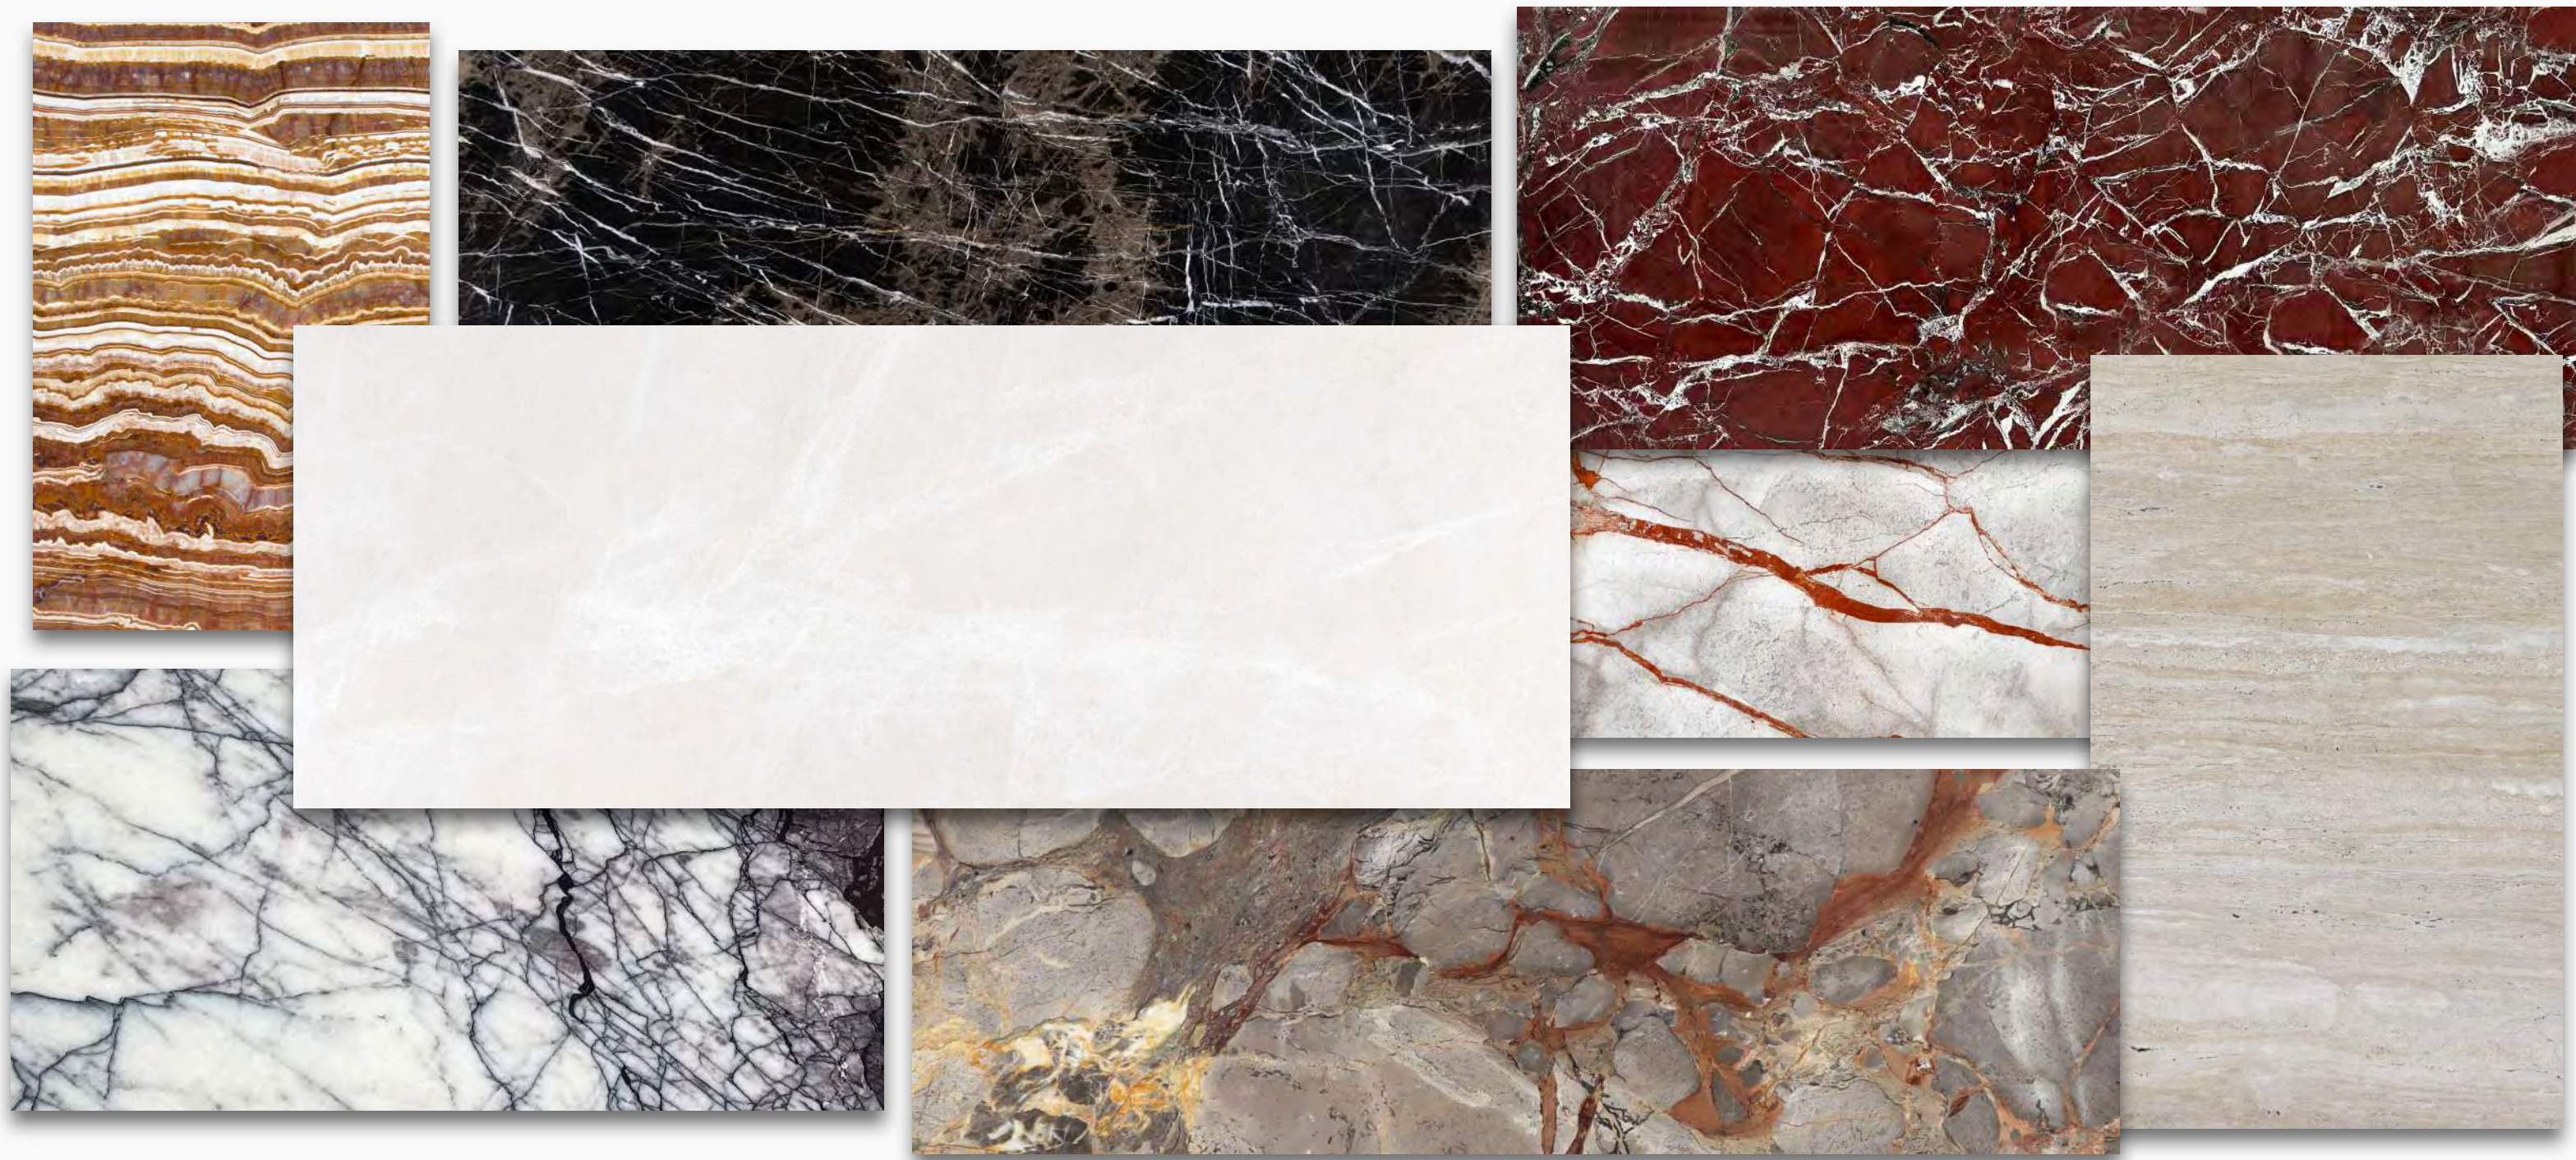

In addition to large-sized slabs, we manufacture cut-to-size tiles and products in various dimensions. Thanks to this broad production capability, we provide customized solutions and successfully deliver unique and exclusive projects for our customers.
